[REDACTED] a school for officers and officer candidates has been located in the Hindenburg Kaserne in Wuensdorf-Zossen (N 53/Z 91), on the east side of Highway No 96 since the beginning of October 1951. The trainees of the school practiced with tanks and other weapons. Building No 139 contained the offices of an unidentified general; Major Vamenkov (fnu), Koch officer of the Hindenburg Kaserne; and Lieutenant Colonel Boledshev (fnu), Vamenkov's commanding officer. The eastern section of the Hindenburg Kaserne was occupied by an unidentified unit which did not belong to the school. 5. On the evening of 16 November, all windows of Camp Zossen, the Lutz Kaserne, the Cambrai Kaserne and the Hindenburg Kaserne were lighted. However, the billeting area of the Panzertruppen Schule was dark except for two buildings which were partially lighted.

6. On 29 October, three detached, vacant sheds and two watchtowers with several guards were observed about 1 km south of Zehrendorf, 25 km east of the Wuensdorf railroad station. *

* Comment. The transfer of the officers' courses from Doberitz to Wuensdorf was previously reported. [redacted] The present report [redacted] indicate that primarily courses of the GOFG and the pertaining instruction units are quartered in the barracks installations at the Zossen-Wuensdorf post. It is possible that an experimental heavy artillery battalion may actually be stationed in the Panzertruppen Schule. [redacted] 50X1-HUM 50X1-HUM 50X1-HUM 50X1-HUM

One Major Pomenko (fnu) was reported [redacted] to have been the auditor of bills of an artillery officers' course in Wuensdorf. He is probably the Major Pamenkov (fnu) who is mentioned in the present report. [redacted]
